Dear Mayor Wolf:

Staff of the Railroad Commission of Texas (RRC) Brownfields Response Program is pleased to enclose the above-referenced phase I environmental site assessment (ESA) for 1100 McCarty Avenue, Rule, Texas (Site). Based on the findings of the ESA, no recognized environmental conditions were identified with current operations at the site. The ESA recommended that the nine 55-gallon steel drums located in the storage shed should be removed and disposed of in accordance with applicable regulation. Based on our discussion, no additional actions are requested by the City of Rule regarding this Site.

On behalf of the Brownfields Response Program, we thank you for your participation. Should you have any additional questions you may contact me at 512-463-7995 or aimee.beveridge@rrc.state.tx.us.
