Comments concerning proposed rulemakings

Connect the Power Grid to the rest of the country, and make ERCOT follow the rules and regulations of the Federal Government designed to protect CONSUMERS. I know that Politicians receive bucket loads of \$\$\$ from the large corporations profiting from the sale of overpriced energy in Texas. Represent the people, or get ready to be replaced! This shopping for a middle man to mark-up the rate for electricity is a rip-off. I have lived in other states, and the energy that SHOULD be cheaper here is actually MORE EXPESIVE. WE SEE YOU!
